

REMARKS

Introduction

Claims 1-9 were pending and under examination.

Amendments that Place This Application in Condition for Allowance

The Office Action rejected Claims 1, 2, and 4-6 for being anticipated by Alreck, et al., and Claims 1, 2 and 5 for being anticipated Leisinger et al. Claim 3 is further rejected for being unpatentable over Leisinger et al.

The Office Action, however, indicates that claims 7-9 are allowable. In order to obtain a quick allowance of the application, applicant has cancelled the rejected the claims, and effectively amended the allowable claims so that they do not depend upon rejected claims, to overcome objections thereto.

Conclusion

In view of the above, it is respectfully submitted that all of the claims are free of the prior art and are otherwise in condition for allowance. Applicants respectfully and earnestly solicit an early indication from the Examiner to that effect.
